

Naizmenična perforacija

B - širina materijala
L - dužina materijala
t1, t2 - korak perforacije
d - prečnik otvora
c - most
M1, M2 - margina
Fo - propusna moć (%)

$$Fo = \frac{d \times d}{t1 \times t2} \times 100 = (\%)$$

Paralelna perforacija

B - širina materijala
L - dužina materijala
t1, t2 - korak perforacije
d - prečnik otvora
c - most
M1, M2 - margina
Fo - propusna moć (%)

$$Fo = \frac{d \times d}{t1 \times t2} \times 100 = (\%)$$
